**DBF Q&A #10**

**22 Feb 2009**

**Q:** Is there a maximum time limit on Mission 3?

**A:** The maximum time limit for any/all missions is 10 minutes. Time starts when the throttle is advanced for the initial take-off. Aircraft in the air at the end of the 10 minutes will be allowed to complete that flight.

**Q:** Are we allowed to fly with an onboard telemetry system, such as RCATS, during the competition?

**A:** Yes. You may use a telemetry system to monitor the aircraft systems and performance.

**Q:** Are we allowed to include any additional content in the electronic pdf submission of the design report other than the 60 pages of text?

**A:** The PDF submission should mirror the printed report.
