

Cessna Aircraft Company Raytheon Missile Systems AIAA Foundation

Please remember that questions submitted prior to the entry deadline of 31 October that were not answered in the FAQ must be resubmitted.

Be sure to re-check the Rules, FAQ and prior Q&A issues before submitting questions to avoid duplication.

Teams who wish to have the member list which is posted on the web site updated may do so during the month of February (updates will be accepted from 1 Feb thru 28 Feb). Please send an e-mail with a COMPLETE copy of the team entry form which has the new/current/updated members listed. Only the member data may be changed and will be updated on the website but a full entry file must be submitted.

Teams requesting a change from a 2.4 GHz radio to a 72 MHZ radio should submit their request during February. Requests will be handled on a first come basis as long as enough frequencies are available.

DBF Q&A #7

1 Feb 2010

Q: The tech inspection states that the plane will be loaded with the maximum payload. As far as the maximum payload is concerned, does that mean the most number of balls/bats possible (10 and 5 respectively), or the most number that we plan to load.

A: Aircraft will be loaded with the heaviest payload, either 10 softballs or the maximum number of bats you have designed to carry.

Q: How are the bats assigned to each group?

A: You will get a random selection of bats each time you attempt the bat mission.

Q: Can bats be restrained using rubber bands or elastic straps?

A: No.

Q: In the rules it states that 1/3 of the team must be made up of junior members. If we were to have 7 senior members and only 3 juniors, would this still qualify despite the 0.03 error?

A: Unless you find a way to have a part of a person we will accept rounding to the nearest whole person.
